about			Folder	

Site Folder—List of sites in Percussion. OHR Website contains both OHR and IntraHR Content.

Views – What items have been checked out.

Navigation Pane – Shows folder structure of the site.

Display Pane – Shows folder structure of currently selected site folder and contained content items.

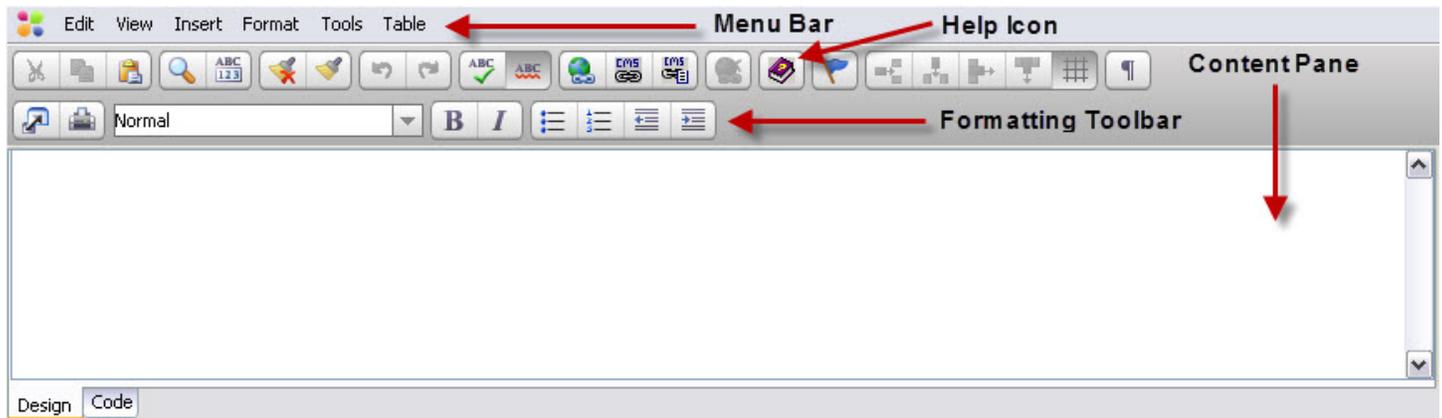

Search – Allows the ability to query the content explorer to find specific or lost items you are trying to locate.

Menu Bar – Consists of three options which are Content, View, and Help.

Roles – When the mouse is hovered over the value of the “Roles” field, Percussion displays a popup listing all of the Roles into which the user has been authorized. Click on this link to display a popup window with the user's list of Roles.

EDITLIVE WINDOW

Menu Bar – Consists of drop down menus to edit and view content.

Help Icon – The user guide explaining the definitions, descriptions, and functions of different tools and options in the Ephox Editor.

Formatting Toolbar – A visual editor in which users can modify lists, fonts, styling etc.

Content Pane – Work area where the content is being currently displayed.
