

WiTS Interfaces

Capital HR (EHRP)

One way interface to WiTS for initiating recruitment actions and populating data fields related to recruitment requests; data is received every 15 minutes via XML file.

HHS Careers (USA Staffing)

One way interface to WiTS for obtaining information about vacancy announcements, applicants, and certificates; data is received nightly (between 1:00a – 3:00a) via XML file.

NIH Enterprise Directory (NED)

One way interface to WiTS for retrieving employee information such as name, email, office address, phone number, and badge ID; data is received within seconds via web services.

Business Intelligence Information System (BIIS)

One way interface from WiTS which sends USAS data (vacancy, certificate, applicant); data is sent nightly (between 1:00a – 3:00a) via XML file.
