PREFACE: ABOUT THIS GUIDE

INTENDED AUDIENCE

This guide is intended to provide guidance to NIH Managers/Supervisors who need to access the HHS Learning Portal and manage their team’s learning. Management of team learning consists of the following:

- View team member enrollments
- Approve training for your team members
- Update a team member’s transcript
- Assign a curriculum or certification to a team member
- Register a team member for a course
- Add a competency requirement to a team member
- Manage the learning plan of a team member
- Perform an assessment on a required competency for a team member
- Run reports based on team member learning

You will need to have a team in order to perform these tasks. A team consists of people that have you designated as manager in their HHS Learning Portal profile. The manager for federal employees is the ITAS Timecard Approver which is received directly from the ITAS system. Contractors may have their managers entered manually. Management of your team extends down to your team members’ subordinates as well.

HOW TO GET HELP

If you encounter technical difficulties with the LMS or while performing any tasks in this user guide, please submit a ticket at: http://intrahr.od.nih.gov/helpdeskform.htm

If you have questions about the NIH training center policy, please contact the NIH Training Center at training1@od.nih.gov, or call the NIH Training Center at 301-496-6211 and ask to speak with a NIH Training Center representative.

ADDITIONAL HHS LEARNING PORTAL INFORMATION

Additional information about the HHS Learning Portal can be found at:

ACCESSING THE LMS

The HHS Learning Portal can be accessed by navigating to the HHS Learning Portal/LMS URL (https://lms.learning.hhs.gov/), You will automatically be redirected to the AMS log on page.

If you need help accessing the HHS Learning Portal through HHS Access Management System (AMS), please refer to the NIH-specific log on instructions found at: http://hr.od.nih.gov/hrsystems/benefits/lms/documents/TS02-L_EmployeeLogOn.pdf

GETTING STARTED

USING WEB BROWSERS

The LMS can be used online with multiple computer platforms. The recommended web browsers for each major platform are listed below.

PC USERS

PC users should use Microsoft Internet Explorer to access the HHS Learning Portal.

MAC USERS

Mac users should use Safari to access the HHS Learning Portal.

POP-UPS AND DOWNLOADS

Many functions in the LMS require pop-up windows. Make sure your browser allows pop-ups from the HHS Learning Portal. For help with this, please contact the NIH IT Service Desk at http://itservicedesk.nih.gov/

Some LMS functions require you to download files, such as printing a certificate of completion from your transcript. You can facilitate this function by checking your browser security settings and allowing file downloads from the HHS Learning Portal. For help with this, please contact the NIH IT Help Desk at http://itservicedesk.nih.gov/

LMS TERMS AND DEFINITIONS

Audience Types - Audience Types are used to group organizations and learners in the system. Similarly, Audience Sub-Types allow for the Audience Types to be grouped further into smaller groups. These groups can then be used to control access to learning offerings in the LMS.

Behavioral Descriptors – Behavioral descriptors are descriptions associated with proficiency levels. They are intended to help establish an anchor that raters and viewers can use when assessing the proficiency level of a competency holder.
Certification – A certification is a predefined set of courses, other certifications, or any combination thereof, that have been grouped together with a deadline for completion. Credentials earned by completing the certification may expire on a predetermined date.

Competency – A competency is a skill, knowledge, ability, or behavior that can be measured, calculated, acquired, specified, or tested. Examples of competencies include “Project Management”, “Written Communications”, and “Interpersonal Communications”. Competencies are notated as either “held” or “required” in the LMS.

Competency Gap – A competency gap is the numerical difference between the required level of a competency and the individual’s currently assessed level of a competency.

Course – A course is organized training with planned objectives for learners to complete. Courses may be offered using a variety of delivery types and may have multiple offerings.

Curriculum – A curriculum is a predefined set of courses, other curricula, or any combination thereof, that have been grouped together. A learner must complete all courses and curricula to complete the curriculum.

Enrollment – An enrollment is an offering that a learner is registered for, but has not yet completed.

Held Competency – A competency receives the status of held in the LMS when it is assessed by the user or others.

Job Family – A job family is a collection of related jobs.

Job Role – A job role is a group of specific skills required to perform a job function. Roles can be shared across multiple jobs.

Jobs – A job is a collection of job roles.

Learning Plan – A Learning plan is a list of learning items a user intends to take and other tasks you need to perform as part of your general development. All LMS users have a single learning plan. Progress is monitored for all items on the plan.
Location – A location is either a geographic location, such as Bethesda, or a name that serves as an identifier, such as NIH Main Campus.

Multi-Rater Assessment (MRA) – A multi-rater assessment (MRA) is an assessment of competencies by a user’s supervisors, peers, and subordinates.

Order – An order is a summary of registrations for learners. An order may include multiple learners or offerings.

Proficiency Level – A proficiency level represents the scale on which a competency is measured. Examples of the proficiency levels used at NIH include “Fundamental Awareness”, “Novice”, “Intermediate”, “Advanced”, and “Expert”.

Ratee – A ratee is the employee whose performance is evaluated.

Rater – A rater is an individual that will evaluate the performance of another employee in a multi-rater assessment.

Registration – A registration is a process that creates an enrollment for a learner and places their name on the roster for physical training or provides access to other methods of delivery such as online training.

Required Competency – A competency receives the status of required when it has been assigned to a user.

Surveys – A survey is a questionnaire that a respondent uses to evaluate a service or provide general feedback.

Transcript – A record or history of training taken by a learner.

User Profile – The User Profile contains information about the learner such as the employee status, start date, name, and organization. The profile does not contain sensitive information such as the employee’s social security number or date of birth.
THE HHS LEARNING PORTAL DEFINED

WHAT IS THE HHS LEARNING PORTAL?

The HHS Learning Portal is a Department-wide training system designed to facilitate management of training for all Health and Human Services employees. It is also known as the Learning Management System or simply LMS. As we proceed through this manual, the term LMS will be used when referring to the HHS Learning Portal.

Local Learning Administrator or Human Capital Administrator may change the direct reports manually as needed in the LMS.

**STEP-BY-STEP (VIEW A TEAM MEMBER’S PROFILE)**

1. Log on to the LMS.

   **NOTE:** For instruction about logging on, see the QRG- LMS Log on Instructions at: [http://hr.od.nih.gov/hrsystems/benefits/lms/documents/TS02-L_EmployeeLogOn.pdf](http://hr.od.nih.gov/hrsystems/benefits/lms/documents/TS02-L_EmployeeLogOn.pdf)

2. Select the **My Team** icon on the LMS Menu bar at the top of the screen.

- **Learner** - View Registrations and Learning request for specific team members.
- **Registrations** – view your team members registrations.
- **Learning Requests** – view learning requests for your team members.

### REGISTRATIONS

As a supervisor, you may manage your team members’ registrations. When a team member is registered for a course, the LMS creates a registration. A registration is confirmed immediately unless a supervisor is required to approve the training. Until a supervisor approves the training, the team member is not officially part of the training. The following steps will guide you through the process of viewing and approving any unapproved training as well as rejecting or dropping the registration altogether.

### STEP-BY-STEP (APPROVING PENDING REGISTRATIONS FOR TEAM MEMBERS)

1. **Log on to the LMS.**

2. **Click on the My Team icon on the LMS Menu bar at the top of the screen.**

3. **Click the Learning link on the left menu.**

4. **Click on the arrow next to the name of the team member you want to approve a registration.**
5. You now you will be able to see all the Registrations for that team member. You can also see the Status of the Registrations.

7. Place your cursor over the **Actions** link of the registration you wish to approve, reject or drop.

8. Select **Approve**, **Reject** or **Drop** in the Actions pop-up menu.

**Important**: Before approving training orders in the LMS, the order **must** contain a valid CAN to ensure the proper obligation of funds in NBS. If there is no tuition (i.e. the Price is 0.00), the CAN is not required. All **approved training orders without** a CAN number will automatically have the Learner’s Payroll CAN number added to the training order the following night. This default CAN will be charged the price of the approved training class. You cannot change the CAN
number on an approved order; the Learner must be dropped, and then re-registered.

**Note:** To view all team registrations, select **Learning** and then **Current Learning** from the menu on the left.

**Note:** The number of enrollments needing your approval is displayed under the **View Registrations Pending Approval** column. For more details you can click on **Actions** and then click on **View Registrations Pending Approval**.
